Pansey Farmer Is Injured by Train

WALTER CULBRETH USES RAIL AS A PILLOW AND IS SERIOUSLY INJURED.

Walter Culbreth, a farmer residing near Pansey, was seriously injured at an early hour yesterday morning when train 57 over the Atlantic Coast Line road struck him Culbreth is said to have been drinking and went to sleep, using the rail as a pillow The engineer saw him but it was too late to stop the train and the wheels of the engine struck the man in the face Fortunately his body was on the outside of the track and this probably accounts for his not being ground to peices His cheekbone and nose are broken, and he is in a serious condition

He was brought to Dothan a short while after the accident and was given medical attention He is now in a local infirmary, and his condition is said to be dangerous

POOR PISTOL SAVES LIFE.

Grove Hill, Ala., April 8.—The Sheriff of this county has succeeded in capturing Goode Bridges, a negro who escaped his custody last week. The negro was captured by Mr. J. L. B Robbins near Catherine, Ala. The sheriff reports that when Mr. Robbins went to arrest the negro he immediately threw a pistol in Mr. Robbin's face and pulled the trigger. The pistol failed to fire and with the assistance of one of his laborers Mr Robbins succeeded in capturing the negro.

PUTS GUN IN YOUNGER BROTHER'S MOUTH AND BLOWS HIS HEAD OFF.

Greenville, Ala., April 9.—News has been received here of a shooting on the plantation of Dan Stallings five miles west of Greenville yesterday, the participants being the three little sons of Will Fifer.

The larger of the trio, five years old, got an old shot gun off of a rack to play with in the absence of the parents of the children. After a few minutes play the boy placed the muzzle of the gun in the mouth of his two and half year old brother and pulled the trigger. The gun was loaded, and when it fired took the top of the boy's head off. The load passed through the boy's head and lodged in the face of a six months old baby boy playing on the floor.

No investigation of the affair will be made on account of the age of the participants.

NOT READY TO MOVE

The postoffice that we have watched grow from a weed patch to an almost completed building, isn't ready yet, and there may be weeks of delay. We put out the report some weeks ago that the fifteenth of this month would be about the time the building would be ready for occupancy.

We understand that this is an error. The inspector has condemned certain things about the building Some say the plumbing is not what they wanted, although it has been in there a year, and plenty of time was allowed for inspection while it was being put in, for it seems the man who condemned it was on the job while it was being installed.

If this is to continue, we may see them take the roof off and put another on, when the inspector peers at the top. Or, perchance, the walls will have to come down, to get a stone near the bottom in the right shape.

We are strong on inspection, and think that the government cannot be too particular about accepting work that is not up to contract, but it looks like that as many men as the government has, it could find a man who would condemn bad work before the building is completed, especially when they are supposed to have a man on the ground, to watch every piece if material, so to speak.

Probably when the plumbing is adjusted, that the wiring will be unsatisfactory, and the interior will all have to come out to have it done over.

That is the difference in the government method and methods of individuals. If one man, or a company had been erecting such a building, they would have some way of making their dissatisfaction known before the keys were ready to turn over.

Meantime, the town has grown so, till we move that Uncle Henry Clayton be wired to begin to dicker for an additional appropriation to increase the size of the building.

TWO CASES

The 2nd of January a most horrible murder was commited in Georgia, by three negroes. The wheels of justice had been turning rather slowly, but court was to convene next week, at which time the negros were to be tried. Saturday, a mob took them out and lynched them.

There was no reason why the mob should have done this, as the court was so near at hand.

In Houston county, nearly a year ago, a negro walked up to the house of his lady love and shot her head off with a gun. He was mad with her about some little fancied wrong, and took this means of avenging his wrath.

The murder was cold blood, and there was an eye witness, for the negro had invited another negro to go along with him, who didn't know what was to be done till the shooting took place.

The negro was arrested and sentenced to be hanged, in regular order, but the lawyers got tied up some way, and the man is on hand yet, eating county grub, and no one knows except the lawyers interested, why the sentence has not been carried out.

There was no doubt about the guilt. We believe he admitted it.

The Georgia mob had no excuse for taking the law in its own hands but if their case had been similar to the one in Houston county they might have acted sooner.

The people in Houston county have no special interest in this case, but it is likely that the family of the murdered woman is interested in knowing what will be the outcome of it.

It is such delays in the courts that often causes a lynching. There ought to be a way of getting around it, but there seems to be none.

If you don't want to get out of doors, and to live in a tent, or board, you better keep mum about what would buy your home. If you put a price on it, somebody will come along looking for just such a snap and buy your home.

A man tanks up on blind tiger liquor and lies down on the railroad track to get a little rest and quietude. Along come a train and knocks him off, crushing up bones and tearing off skin. It could be said that a man should be careful in drinking blind tiger booze, but it does no good. It won't kill one quicker than the brands legally sold. It is evident that the engineer had no way in the world of preventing his engine from knocking thhe fellow off the track, but you who love to go down when court is called at eight o'clock and sit through the term, will likely hear, in time, of a damage suit being made a gainst the road. The road was about as much responsible for the accident as old Bob Griffin, the street sweeper.

We wish to call the attention to the postoffice department that the bottle sitting on top of the building isn't according to plans and specifications, and that it has been sitting there several months, meantime, it has been filled with rain water, which is liable to breed mosquitoes. We shouldn't accept the job till that bottle is taken down. It might be thrown down to the paved streets and broken, a common way of destroying bottles in this town. But we give notice that if this method of destruction is employed, and we get on to the truthfulness of it, that the matter will be brought to the notice of the police, who will take great pains to ferret out the case and make an example of the offender.

While they were rushing bills through the legislature last week somebody brought up a bill to better the mining conditions, but it was sidetracked for administrative measure. Then comes a mine disaster and snuffs out the lives of a hundred men. Probably a frantic effort will be wade this week to do something Just as New York is wild over bettering building conditions now that it has destroyed a number of young women through carelessness. We usually have to be batted over the head to see our duty.

Every day more people are seen on the streets of Dothan. There are more teams, more automobiles, more bicycles and a string of motorcycles and it takes an adept to cross the street without thinking of renewing his insurance policies. So far, the town has been remarkably free from serious accidents, but this kind of luck cannot expect to last.

No man ever gets in politics and remains a hero to the people who know him best. Usually when a man become governor he couldn't be elected justice of the peace in his home beat immediately after his term closes. Getting elected to office banks the fires of popularity with most men.

If you could find anybody who had time, we would like to know just how many miles of sidewalk have been put down in Dothan during the last year, and how many more are to be put down this year.

The boys are already counting the days before vacation, and it doesn't seem long since school took in after the Christmas holidays.

SUPERFLUOUS PAPERS.

There were two newspapers in the small town of Baldwin, and it was generally agreed that there was room for but one. The old established paper was a good one, and the young contemporary was a poor one. The other day the old established paper bought out the other, and Baldwin has but one paper, and everybody is glad, especially the business men, who were tired of being bonded for advertisements by rival publishers.

Yet the business men were responsible for the establishment of the second paper. When the publisher arrived in the town looking for a long felt want, he received encouragemenet from the merchants. They told him the town needed two papers and patted him one the back, and said he was a bully boy with a glass eye. Now they are glad that the the fat kine ahev swallowed the lean kine, so to speak, but if another wondering newspaper man goes to Baldwin in six months or so, looking for a long felt want, the business men will give him a warm greeting and tell him that the town is just suffering for a bright, aggressive paper that will speak its mind without fear or favor.

Business men are that way, the world over. They will go out of their way to get new papers for the towns they live in, and then they will permit those papers to starve to death. Recently there was great rejoicing in business circles at Lawrence because two of the daily papers consolidated. The town had four daily papers, which was ridiculous, for a town like Lawrence has no more are for a string of daily papers than a wagon has for six wheels.

Yet it would be a safe bet that if a stranger went to Lawrence with a rack of type, and announced that he contemplated starting a bright snappy daily, he would get the glad hand from half the business men.

About the worst thing that can happen to a town is a superfluity of newspapers. It is a bad thing for the newspapers themselves, for they have to beg for a living and make themselves contemptable. It is bad for a town, for the various newspapers are pretty sure to start quarrels which will develope into town rows and line the citizens up against each other. It is a perenial nuisance to the business men yet the business men are nearly always responsible for the excess of newspapers. If they would discourage wandering publishers instead of killing fatted calves in their honor, they would sidestep a lot of grief and be doing their towns a genuine service.

The Sound Sleep of Good Health

Can not be over estimated and any ailment that prevents it is a menace to health. J. L. Southers, Eau Claire, Wis., says: "I have been unable to sleep soundly nights, because of pains across my back and soreness of my kidneys. My appetite was very poor and my general condition was much run down. I have been using Foley Kidney Pills but a short time and now sleep as sound as a rock, my general condition is greatly improved, and I know that Foley Kidney Pills have cured me." Sold by N. H. "I Never Keep Him Waiting Now"

"I have plenty of light to dress by, for I am using that wonderful General Electric Mazda Lamp."

"I have found that this new lamp gives twice the light of the ordinary electric incandescent; and it uses less current, too; and the quality of light is infinitely superior to that given by the old style carbon incandescent."

"When I first heard of the Mazda Lamp I was not using electric light, but when the wonders of this lamp were shown to me, I immediately had my house wired. You will do the same, too, if you take time to have this wonderful lamp demonstrated to you."

Just drop in for a moment today and let us show you why everyone who uses the G-E Mazda Lamp is so enthusiastic in its praise. Your call on us places you under no obligation, and it may be of decided advantage to you.
